

PERSONAL  
**CLIMATE ACTION**  
CHECKLIST

# Welcome!

There are TONS of resources online with advice on how to personally take action on climate. I've found them to be incomplete, so I've take the best of the best and am now sharing them with you.

I created Climate Wealth because we, as individuals, can make money AND save the world at the same time.

That's what I've done with my career, lifestyle, and it's generated wealth for my family and I.

#### What is climate wealth?

Climate wealth is personal and social wealth that benefits the climate. Make your money in a climate career. Invest your retirement funds in climate-friendly funds. Living sustainably means independence in this ever changing world.

I done all of this and more. I live in abundance. You can, too.
